Senior Fall FAQs

In DARS my Pathways Concept 1 - Discourse (advanced) is incomplete. Do I need to add a specific course for this?

- No, you do not need to add an extra course for advanced discourse.
- The advanced discourse requirement is covered by a combination of AOE 3054 and senior design/experiments courses.
- As long as you complete all of the AE or OE major required courses, you will complete your advanced discourse requirement.

How should I decide which track and general technical electives to take in the fall?

- Run a DARS!
- How many electives are still needed for your chosen track?
How many total electives do you still need?
- Remember technical electives are offered fall or spring, but not both terms.
- **If your track has a foundational course, determine when you need to take it.** Use the curriculum resources at the end of this presentation.
- **You may only count 6 credits of non-AOE technical electives** (track & general tech combined)
- When in doubt, contact your advisor!

Can I take AOE 5xxx level technical electives?

- If you are enrolled in the UG/G program you may take AOE 5xxx courses that work with your UG/G plan.
- If you are a senior with a GPA greater than or equal to 3.0 you may take AOE 5xxx courses with instructor permission.
- You can request to be force-added to 5xxx level courses during end of summer add/drop using our online [AOE Force-Add Request Form](#).

I looked at my DARS and I currently have course in multiple tracks? What's going on?

- Some courses are options in multiple tracks. So, they may show up under different tracks at first.
- If a course can count as a track elective, DARS will place it there before putting it under general technical electives.
- Once you enroll in 3 courses that fulfill a single track, they should group together, showing that the track is in-progress or complete. Any other courses you have completed that could have been track courses should then move to technical electives or free electives.

I took a special study (AOE 4984) that was supposed to count for my track. But, in my DARS I don't see it there. What's going on?

- Special studies do not automatically go in a track in DARS.
- If you have taken a special study that is supposed to count in a track, contact your advisor to request a substitution placing it in that track.
