3. The drop deadline is Feb. 28th & I'm thinking about dropping a course. What should I consider?

- Understand prerequisites and any impacts on future course scheduling. You may need summer courses and/or take additional time to graduate.
- Know where in your academic plan you will put the course if you drop it this semester.
- If you are struggling in a course, think about what you have tried so far. It may make sense to speak to your instructor or seek tutoring before dropping it.
- Keep in mind that if you choose not to drop a course, you may be able to use a course withdrawal (W) later if needed.
- Check with the [Office of University Scholarships & Financial Aid](#) for questions regarding financial implications of dropping a course.
- If you have any questions, check with your advisor!
