### FAQs of the Month

#### 1. What should I course request for Fall 2022?

- Use the [AOE checksheets/curriculum resources](#) to determine your appropriate Fall 2022 courses.
- Read the [Fall 2022 Course Request Guides](#) on the AOE Advising Website.
- If you have unique circumstances that make your plan differ from the traditional checksheet progression (e.g. 5-year plan, double major, ROTC, study abroad, minors, etc.), schedule an advising appointment to discuss your fall plan.

#### 2. I'm not able to request an AOE course that I need in Fall 2021. Can I be force-added during course request?

- You cannot be force-added during course request.
- During the add/drop periods for Fall 2022, you may submit requests to be force-added to AOE courses, using our online [AOE Force-Add Request Form](#).
- Carefully read the instructions for requesting a force-add and include necessary documentation.

#### 3. I want to take Principles of Project Design & Management and/or Fluid Flows in Nature (AOE 4064) in Fall 2022, but they are not on the timetable. Will they be available?

- Principles of Project Design & Management WILL be taught in Fall 2022. Although this course is not listed yet, look for it when add/drop opens on April 22nd.
- AOE 4064 will NOT be taught in Fall 2022. We expect that it will be taught in Spring 2023.
